PUBLIC NOTICE:
RIESEL CITY COUNCIL MEETING

NOTICE IS HEREBY GIVEN that the City Council of the City of Riesel, McLennan County, Texas, will hold a REGULAR called meeting on Tuesday, December 11, 2012 at 6:30pm at Riesel City Hall, 104 N Hwy 6, to consider the following matters:

CITY BUSINESS:

01. Call meeting to order

02. Consent Items:
   A. Approval of Minutes from the Regular Council Meeting on Tuesday, November 13th, 2012 and Minutes from the Special Called Meeting from November 19th and the Special Called Meeting (work session) on December 4th, 2012.
   B. Authorization of Payment of Bills/Payroll
   C. Monthly Financial Report

03. Visitor’s Comments: This is an opportunity for visitors to bring any item to the City Council’s attention which is not listed as a separate agenda item below. No deliberation may be held on the matter, except limited to a proposal to put the subject on the agenda for a subsequent meeting.

04. Plant Update from Sandy Creek Services – Mark Spencer.

05. Consider/Action on Arsenic Reduction Plan and possible TWDB loan or funding options and submitting an IUP for the 2013 funding cycle (due by January 4th).

06. Consider/Action on possible SRF program options for Charles Street Water/Sewer Line Replacement Project.

07. Consider/Action on employee/police coverage on holidays.

08. Consider/Action on quotes from AT&T & Verizon phone and air card service and equipment.

09. Consider/Action on bridge easement cleanup, possible quotes for partial mowing.

10. Consider/Action on appointment of RMS board members to represent City of Riesel.

11. Consider/Action on update from Daryl Uptmore on Rattlesnake Well study pertaining to possible design flaws and causes of aerated water.

12. Consider/Action on replacing some of the insufficient office furniture (desks).

13. Adjourn Meeting

I hereby certify that this notice was placed at its present location at least 72 hours prior to the above meeting time. Posted on December 7, 2012 at 12:00 pm:

___________________________________________________
Alisha Flanary
City Secretary, City of Riesel
Call to Order: The meeting was called to order by Mayor Dave Ross, presiding officer, at 6:30 p.m.

Council Members Present: Gerry Suttle, Deena Tobias, Tom Flanary, Al Bumelis & Jordan Doughty

Employees Present: Teresa Ellis and Alisha Flanary

Visitors Present: Phyllis Koester, Mark Spencer, Jeanne Lehrmann, Roger Fitzpatrick

Consent Items: Gerry Suttle made a motion to approve all consent items including Minutes from October 9th, the payment of bills/payroll and the October Income and Expense Report. Tom Flanary seconded the motion. Motion carried unanimously.

Visitor’s Comments: None

Plant Update: Sandy Creek Project Director, Mark Spencer, reported another successful month with no safety incidents. Steam blows are finished and they are progressing on schedule with expectations of going commercial in late March to early April.

Progressive Waste Solutions: Wylie Dugger announced his retirement and that Aaron Melton would be replacing him. A 2.12% increase in garbage service rates was proposed with an effective date of January 1st 2013. Al Bumelis made a motion to accept the rate increase as proposed. Tom Flanary seconded the motion. Motion carried unanimously.

Pipeline: Tom Flanary made a motion to authorize Mayor Ross to sign a Letter of No Objection from Texas Express regarding the plans for the 20” natural gas pipeline that was approved earlier this year. Jordan Doughty seconded the motion. Motion carried unanimously.

School Zone: Gerry Suttle made a motion to adopt Ordinance #2012-08, setting reduced speed zones in the area of the new Riesel High School on South Fair Park and Charles Street. Deena Tobias seconded the motion. Motion carried unanimously.

Park Grant: Alisha Flanary gave an update on the Texas Parks & Wildlife Trail’s Grant for Mullens Park. The City of Riesel applied for the grant in February of this year to fund a fitness & recreation walking trail at Mullens Park. The project was selected to receive $80,000 of grant funding. Construction of the project is expected to begin next year.

Sprint: Cell phone service and USB air card service has been very unreliable since switching to Sprint. Gerry Suttle made a motion to table this item until next month to see the promised repairs would improve service. Deena Tobias seconded the motion. Motion carried unanimously.

Refunded Tax Obligation: The Texas Comptroller of Public Accounts informed the City of Riesel that the City’s request for extending the current sales tax payback agreement for five months had been approved. The additional $19,919.68 would be added to the existing agreement and that $4,000 would continue to be deducted monthly through October 2019, followed by one payment of $3,919.68 in November of 2019.
Executive Session: at 7:15 PM, Council went into closed session, pursuant to Section 551.074 of the Government Code so that City Council could deliberate the appointment, employment, evaluation, promotion, compensation/raises, reassignment, duties, discipline, or dismissal of, or to hear a complaint/grievance regarding Teresa Ellis.

8:06 PM Council reconvened in open session. No action was taken during executive session.

Reassignment: Al Bumelis made a motion for Teresa Ellis to be reassigned to Ali Wright’s former position with a $1.00 pay increase per hour. Gerry Suttle seconded the motion. Motion carried unanimously.

Executive Session: at 8:09 PM, Council went into closed session, pursuant to Section 551.074 of the Government Code so that City Council could deliberate the appointment, employment, evaluation, promotion, compensation/raises, reassignment, duties, discipline, or dismissal of, or to hear a complaint/grievance regarding Kyndra Padilla.

8:20 PM Council reconvened in open session. No action was taken during executive session.

Promotion: Tom Flanary made a motion that Kyndra Padilla be promoted to a full time position. Jordan Doughty seconded the motion. Motion carried with two (3) Ayes (Tom Flanary, Jordan Doughty, & Al Bumelis) and two (2) Nays (Gerry Suttle & Deena Tobias).

Pay Period Changes: Gerry Suttle made a motion to adopt the recommendations by CPA Teresa Spinks, which would change the employee payroll from a semi-monthly to a bi-weekly pay day and the first bi-weekly pay period would begin on 12/26/12 through 1/4/13 and would be paid on 1/11/13. Tom Flanary seconded the motion. Motion carried unanimously.

Tom Flanary made a motion to give each employee the option of using their own comp time or vacation time to compensate for the missing week of pay that would result from being held back a week; or to also allow the employees to borrow the pay from the City with the requirement that it would be paid back with automatic deductions from their paychecks within 12 weeks. Al Bumelis seconded the motion. Motion carried unanimously.

With no further business and with no objection, the meeting adjourned at 8:30 pm.

Roger Fitzpatrick, Mayor

Attest: Alisha Flanary City Secretary
CITY OF RIESEL
SPECIAL CALLED MEETING MINUTES ~ NOVEMBER 19, 2012

BE IT REMEMBERED that on Monday November 19TH, 2012, the Riesel City Council met in a SPECIAL called session, at 6:30 p.m. in the Riesel City Hall Meeting Room, at 104 Hwy. 6 North in Riesel, Texas, with notice of said meeting having been posted at least 72 hours in advance in accordance with Section 551, Texas Government Code.

Call to Order: The meeting was called to order by Mayor Dave Ross, presiding officer, at 6:30 p.m.

Council Members Present: Gerry Suttle, Deena Tobias, Tom Flanary, Al Bumelis & Jordan Doughty

Employees Present: Teresa Ellis, Danny Krumnow, Pete Zuniga, Ryan Dieterich, Steven Wetzel, Daryl Uptmore, Kyndra Padilla and Alisha Flanary

Visitors Present: Phyllis Koester, Mark Spencer, Jeanne Lehrmann, Roger Fitzpatrick, & Steven Edmonds

Canvassing Election: Gerry Suttle made a motion to adopt resolution #2012-1119, canvassing the returns of the General and Special Elections of November 6, 2012 for the purpose of electing a Mayor and Council Members; Determining a measure regarding the reauthorization of a street maintenance sales tax; And determining a measure regarding collective bargaining for police officers. Jordan Doughty seconded the motion. Motion carried unanimously.

Certificates of Election: Gerry Suttle made a motion to authorize the issuance of Certificates of Election to the newly elected officers (Roger Fitzpatrick, Jeanne Lehrmann, & Phyllis Koester). Jordan Doughty seconded the motion. Motion carried unanimously.

Oaths of Office: Gerry Suttle made a motion to authorize the administering of the Oath's of Office to the newly elected Council Members and Mayor. Jordan Doughty seconded the motion. Motion carried unanimously.

Alisha Flanary administered the oaths of office to Roger Fitzpatrick, the newly elected Mayor; Phyllis Koester, Council Member, and Jeanne Lehrmann, Council Member.

Upon the swearing in of the new officers, Mayor Dave Ross, Tom Flanary and Jordan Doughty stepped down and relinquished their seats to the newly elected officers and Mayor Fitzpatrick presided over the remainder of the meeting.

Appointments: Gerry Suttle made a motion to nominate Phyllis Koester as Mayor Pro Tem. Deena Tobias seconded the motion. Motion carried unanimously. Deena Tobias made a motion to nominate Gerry Suttle as Treasurer. Phyllis Koester seconded the motion. Motion carried with one (1) abstention by Gerry Suttle.

Authorization of Purchase: Gerry Suttle made a motion to authorize, as budgeted, the purchase of a new Chevy Tahoe for the Police department. Jeanne Lehrmann seconded the motion. Motion carried unanimously.

With no further business and with no objection, the meeting adjourned at 6:44 pm.

__________________________________________  ________________________________
Roger Fitzpatrick, Mayor                      Attest:  Alisha Flanary, City Secretary
BE IT REMEMBERED that on Tuesday December 4th, 2012, the Riesel City Council met in a SPECIAL called meeting to hold a work session, at 6:30 p.m. in the Riesel City Hall Meeting Room, at 104 Hwy. 6 North in Riesel, Texas, with notice of said meeting having been posted at least 72 hours in advance in accordance with Section 551, Texas Government Code.

Call to Order: The meeting was called to order by Mayor Fitzpatrick, presiding officer, at 6:30 p.m.

Council Members Present: Gerry Suttle, Deena Tobias, Jeanne Lehrmann, Al Bumelis & Phyllis Koester

Employees Present: Alisha Flanary

Visitors Present: None

Holidays: Discussion was held pertaining to police and possible office coverage on holidays and the days before and after holidays. Questions were asked about how comp time had been handled in the past and whether or not employees were allowed to take the holiday off on another day. Questions were also asked as to why employees had the day after Thanksgiving off.

Street Maintenance, Job Descriptions, and Animal Control: Discussion on these topics were combined by Mayor Fitzpatrick, as the specific concerns he had are all dealt with by the utility department. Fitzpatrick is taking an active role in addressing each of these issues and urged council to put more emphasis on street and easement maintenance in the future and to consider budgeting more money to street maintenance as well. He recommended having monthly work sessions in the future to get on the right track and start some more detailed strategic planning. Questions also came up over the maintenance of Roadrunner Road as it has deteriorated quite badly and complaints have been brought to one of the Council Members. Animal Control was discussed and questions were brought up regarding how many employees we may need to have licensed. Also, questions were brought up regarding the requirements of having a licensed animal control employee, e.g., vehicle & cage requirements, testing requirements, & immunizations.

Charles Street Water/Sewer Line Replacement and Street Repair Project: Mayor Fitzpatrick said he’d like this subject addressed every month and urges Council not to rush into this project without thoroughly researching all construction options and funding opportunities.

Rattlesnake Well Study: Brief discussion was held pertaining to KSA Engineering’s study of the new well regarding the possibility of a design flaw that could be causing the excess air in the water, or to determine another reason for the aerated water. An official conclusion has not been determined by KSA at this point. Mr. Dorman has consulted with Daryl and inspected the well, but no final report has been made yet.

There was no action made during this work session.

The meeting adjourned at 8:00 pm.

________________________________________   _______________________________________
Roger Fitzpatrick, Mayor                        Attest: Alisha Flanary, City Secretary
The best source of information is the TWDB's website. We would be looking at their Drinking Water State Revolving Fund (DWSRF). The TWDB requires IUP (Intended Use Plan) to be submitted. These are about 10 page applications that we will take care of for the City. They have another round of invites in January for remaining 2013 money and then in March for FY14 money.

Thank you

Stephen P. Dorman, P.E. | Principal, Division Manager
KSA Engineers, Inc. | www.ksaeng.com
Main: 512.342.6868 | Fax: 512.342.6877 | Cell: 512.415.0440
sdorman@ksaeng.com

These options are definitely something Council would like to consider. I need more information so I can include it in their council packets. Can you send me anything? Or the link to where ever I can find it? I hate to sound stupid, but what is an IUP?

Alisha Flanary
City Secretary

Subject: 2013 TWDB DWSRF Program
Date: Thu, 6 Dec 2012 15:26:39 -0600

Mayor Fitzpatrick:

As per our meeting on 12/5/12, the following chart shows the loan rates available from the TWDB. I would assume that Riesel would be offered a 2.29% rate if the loan went through today.
Also, Brent in my office talked the TWDB program lead yesterday. He indicated that they still may have disadvantaged funding available for FY 2013. Communities that receive disadvantage classification and are ranked high enough on this list could qualify for 30% loan forgiveness. I would think that the Charles Street project would NOT qualify for disadvantage funding. They typically reserve that for high project needs (like the treatment of arsenic).

Charles Street may still be fundable for the utilities under the SRF program or the "mainstream funding" (i.e., Development Fund or Rural Water Assistance) that is available. As we discussed, the TWDB will take several months to review any application for approval.

I recommend that the City proceed with submitting an IUP for the 2013 funding cycle that is due on January 4th for the arsenic project.

KSA Engineers, Inc. - Building Stronger Communities.
The Drinking Water State Revolving Fund (DWSRF) provides loans at interest rates lower than the market offers to finance projects for public drinking water systems that facilitate compliance with primary drinking water regulations or otherwise significantly further the health protection objectives of the federal Safe Drinking Water Act (SDWA). To be eligible for funding, a proposed project must be consistent with the regional and state water plans. In the DWSRF program as of December 7, 2012, the TWDB was offering loan interest rates at 1.25% lower than the market rate. For non-rated entities (see next paragraph), a 2.29% interest rate is available.

DWSRF projects are selected for funding on the basis of a priority rating system. The Texas Commission on Environmental Quality (TCEQ) will rate each project and develop a priority list which is then submitted to the TWDB. To qualify for funding, a project must correct the violations or conditions that contribute to its rating.

The City will need to submit an Intended Use Plan (IUP) to the TWDB for scoring. Currently, the TWBD is accepting IUPs for the 2013 and 2014 funding cycle.

To acquire the TWDB DWSRF funding, the following steps are required:

1. The City will need to submit an Intended Use Plan to the TWDB that identifies the proposed project and costs. A disadvantaged community worksheet will need to be completed to determine if the City can receive grant funding. The deadline to submit an application is typically in early March.

2. The TWDB will rank all the IUPs and invite entities to submit a full application. At this time, the City will be advised if any grant funding is available. This usually occurs in during June or July each year.

3. The City will then submit a full application that includes engineering, financial, and legal sections. Application deadlines typically occur in September or October.

4. The TWBD will process the application and, if appropriate, recommend the project for Board approval.

5. If the application is approved by the TWDB, the City will work in coordination with their bond counsel and financial advisors to close on the loan. Once the loan is closed, the City will have access to the funding to complete the design.

6. For projects that can proceed from design to construction within six months, design and construction funding will be offered to the City. Otherwise, the City will only have access to design funding.
To qualify for the TWDB DWSRF funding, the City will be required to complete a Water Conservation Plan (WCP). KSA will be able to assist the City in developing a proposed WCP for a fee of $5,000 (time and expense). Also, the City will also need to submit an updated Water Loss Audit.

The City may be able to qualify for disadvantaged funding (grant). To qualify for disadvantaged funding, the City must have an Annual Household Median Income (AMHI) less than 75% of the State AMHI. According to economic information obtained from the US Census Bureau’s 2010 census results, the City may be able to meet this requirement. In determining disadvantaged levels, the TWBD also looks at the City’s water usage and loan amount.
December 3, 2012

Re: Solicitation of Project Information for Inclusion in the State Fiscal Years 2013 and 2014 Drinking Water State Revolving Fund Intended Use Plans

Dear Interested Party:

The Texas Water Development Board (TWDB) is pleased to offer the opportunity for existing public drinking water systems and other eligible entities to submit project information for inclusion in the State Fiscal Year 2013 and 2014 Drinking Water State Revolving Fund (DWSRF) Intended Use Plan. The DWSRF program provides low-interest financing for projects that will bring existing public water systems into compliance with drinking water rules and regulations and for source water protection projects. In addition, special loan subsidies may be available for entities that qualify as disadvantaged communities or have projects with eligible green components. In order to be invited to apply for State Fiscal Year 2013 or 2014 DWSRF funding, entities must have their projects listed in the DWSRF Intended Use Plan.

The TWDB is currently soliciting project information for the State Fiscal Year 2014 Intended Use Plan and for projects able to utilize remaining State Fiscal Year 2013 funds. For projects pursuing remaining State Fiscal Year 2013 funds, greater priority will be given to those deemed ready to proceed by the TWDB that are able to close and proceed to construction within six months of receiving a commitment. More information on this opportunity is available in the Project Submission Guidelines. Projects that are not funded utilizing remaining 2013 DWSRF funding will automatically be included in the State Fiscal Year 2014 Intended Use Plan. Please note that having a project listed in the Intended Use Plan does not obligate an entity to apply for funding.

For a project to be listed in the State Fiscal Year 2013 or 2014 DWSRF Intended Use Plan, each entity must:

- Complete the Project Information Form and all applicable forms even if you submitted the forms in previous years (see exception below).
- Submit the completed forms to the TWDB no later than 5:00 PM CT on Friday, January 4, 2013, for consideration for State Fiscal Year 2013 (see Project Submission Guidelines for submission information).
- Submit the completed forms to the TWDB no later than 5:00 PM CT on Friday, March 1, 2013, for State Fiscal Year 2014 (see Project Submission Guidelines for submission information).
- Exception: If you received a loan from the TWDB for the planning, acquisition, and/or design phase(s) of a project listed in the State Fiscal Year 2011, 2012, or 2013 Intended Use Plan, you do not need to submit a Project Information Form for subsequent phases of the same project unless the information previously submitted has changed. If the information has changed, please submit updated forms by the March 1st deadline above. If updated forms are not received by the deadline, the project will be included in the State Fiscal Year 2014 Intended Use Plan using the information from the latest Project Information Form on record.
The solicitation forms and additional guidance are available on TWDB’s DWSRF web page (http://www.twdb.texas.gov/about/contract_admin/RFQ/2013_dwsrf_iup.asp). Paper copies of the solicitation packet may be requested by contacting Rosario Flores at 512-463-4841 or rosario.flores@twdb.texas.gov.

DWSRF projects are selected for funding on the basis of a priority rating system. The solicitation forms are designed to help potential loan applicants describe proposed projects and the public health or water quality problems to be addressed. The Texas Commission on Environmental Quality (TCEQ) uses the information provided on the forms to numerically rate each project and develop a priority list which is submitted to the TWDB. To qualify for funding, a project must correct the violations or conditions that contribute to its rating. Funding is offered primarily based on project rating and secondarily based on federal requirements to provide additional subsidization to disadvantaged communities, to allocate funds to projects that contain green components, and to fund projects determined by the TWDB to be ready to proceed to construction. The applicable forms must be completed in full to ensure that the proposed project is accurately rated.

To be eligible for funding, a proposed project must be consistent with the regional and state water plans. The State Water Plan is based on regional plans developed by the 16 regional water planning groups that represent the different geographic areas of the state. If you have any questions regarding your proposed project and the State Water Plan, please contact your regional water planning group, or the TWDB at 512-936-0814. Information about the State Water Plan may also be found at http://www.twdb.texas.gov/waterplanning/swp/.

TWDB staff members are conducting a financial assistance workshop to discuss both the DWSRF and Clean Water SRF programs and how to obtain financial assistance. The workshop will be held on Tuesday, December 11, 2012, from 1:30 PM to 3:30 PM in the Stephen F. Austin Building, Room 170, 1700 N. Congress Ave., Austin, Texas. If you are interested in attending a workshop, please RSVP to Rosario Flores at 512-463-4841 or rosario.flores@twdb.texas.gov. Other workshops are being scheduled around the state for the month of January. Date, time, and location information will be posted on the TWDB website once announced. You can also request help in filling out the DWSRF forms through the TCEQ Financial, Managerial, and Technical (FMT) Assistance contact listed below.

Subject: RE: Milky Water
Date: Mon, 12 Nov 2012 15:08:54 -0600

Daryl:

The new well and/or treatment process is causing the added dissolved oxygen. Generally, cold water will have more oxygen than warm so when cold water from mains comes into warmer areas like faucets the oxygen is released by the bubbling in the water. It can also be a function of the water being under pressure in the mains and then released at the tap (point it hits atmosphere). I assume your new videos will be like the one that Alisha showed me with the water clearing from the bottom of the glass up to the top which is classic case of air in the water.

As we discussed, there is no health issue with “milky water”. I do not believe we need any further chemical testing of the water. I am still curious to see if this phenomenon occurs at the well discharge header, before the clearwell, and/or high service pumps. It could be the nature of the aquifer at the current location. While the pump station is not hydraulically efficient and could cause the addition of air, I still have a hard time understanding that a small amount of air could cause the milky water all across town. The units processing the well water could be adding excess air. My assumption at this point is the vast majority of the air in the water is coming from the aquifer water itself and not the treatment/pumping process.

It sounds like your blending schedule may be the best approach to manage the condition.

Please let me know if you would like for us to continue to explore other possible solutions (plant layout changes, additional storage, etc).

Thank you

Stephen P. Dorman, P.E. | Principal, Division Manager

KSA Engineers, Inc. | www.ksaeng.com
Stephen,

We have been entirely/100% on new well for seven days.

From 11/5/12 @ approximately 9:30 am till 11/12/12 @ 7:50 am

I've checked several taps and they are all milky.

Water started showing signs of DO at tap on Wednesday morning 11/7/12

I am now switching back to RMS water as of 11/07/12 by 8:30 am

Alisha has some videos

I'll take one or two myself this morning.

Daryl Uptmore
