9. *Place of Employment* means any area under the control of a public or private employer which employees normally frequent during the course of employment, including, but not limited to, work areas, employee lounges and restrooms, conference and class rooms, employee cafeterias, hallways and vehicles. 12. *Separate Ventilation* means a separate heating, ventilation, and air conditioning (HVAC) system such that air from the smoking area is exhausting directly to the outside and not circulated within the building or mixed with the general dilution ventilation for the building and that creates a negative pressure away from the door into the room sufficient to prevent any flow of smoke from the smoking area to the non-smoking area. An HVAC system must be designed by a licensed professional engineer to meet the requirements of the city mechanical code.
